Introduction

In 2015, the Nebraska Council of School Administrators (NCSA) initiated the development of the *NCSA Superintendent Standards and Evaluation Process* to bring clarity and consistency to the performance expectations and evaluation of superintendents across Nebraska. NCSA, with input from members, determined it was time to establish superintendent standards and an evaluation process as a part of the state-wide focus on accountability and continuous improvement of Nebraska schools. The role of the superintendent is critical to the success of the education system. This process is designed to guide the conversation between school board members and their superintendent in a collaborative approach for the purpose of understanding the role of the superintendent and subsequently, the improvement of performance of both the superintendent and the education system.

The *NCSA Superintendent Standards and Evaluation Process* serves to:

- communicate the diverse and complex expectations of the role of the superintendent;
- guide local boards of education in understanding the expectations of performance and duties of the superintendent;
- provide professional organizations and institutions of higher education with information on the education and training needs of today’s superintendent;
- provide a framework for ongoing professional development needs of the superintendent; and
- create a process for the consistency in the expectations and evaluation of superintendents.

Input from across Nebraska and from state and local resources created a foundation for the *NCSA Superintendent Standards and Evaluation Process*. Job descriptions, standards, policies, and evaluation instruments currently used in Nebraska school districts served as a critical resource for the development of the standards and evaluation process. The *NCSA Superintendent Standards and Evaluation Process* was cross-referenced to the Nebraska Department of Education Title 92 Chapter 10 (Rule 10) Regulations and Procedures for the Accreditation of Schools. Finally, the *NCSA Superintendent Standards and Evaluation Process* was validated through a state-wide review process including: the NCSA board, Nebraska superintendents, ESU administrators, school attorneys, superintendent search firms, and other key stakeholders. For more information, see *Section IV: References*.

This document consists of four sections. Each section may be used individually to help inform and guide school leadership or collectively as a foundation for successful school leadership. After this introduction, the sections are as follows:

*Section I — NCSA Superintendent Standards*

*Section II — NCSA Superintendent Evaluation Process*

*Section III — Resources*

*Section IV — References*
Section I  NCSA Superintendent Standards

The NCSA Superintendent Standards were developed through a synthesis of references and resources including: a review of literature; standards, domains or characteristics defined in several states; and, standards defined by national organizations. The most commonly used set of standards; the Professional Standards for Educational Leadership (PSEL), were published in 2015. The standards, also referred to as the Interstate School Leaders Licensure Consortium (ISLLC) Standards, were first published in 1996 by the Council of Chief State School Officers (CCSSO). The PSEL standards have been the foundation for school leaders at the building and district level. Though not developed specifically for the school superintendent, they have been used in numerous states as the foundation for superintendent standards. The NCSA Superintendent Standards were also cross-referenced with the Nebraska Department of Education Teacher and Principal Frameworks.

It is important to put the standards in perspective of the role of the superintendent. The superintendent provides the leadership for the organization. In this critical role, it is the responsibility of the superintendent to see that all key elements in the system come together to ensure success for the organization and the recipients of the services (students) are successful. These standards serve as a roadmap to communicate to all key stakeholders the essential elements that frame the success of the superintendent and, ultimately, the students.

The NCSA Superintendent Standards are organized as follows:

Standards: A broad statement regarding knowledge, skills, and abilities; and, the expectations of the position.

Indicators: Performance-based statements that provide a clear understanding and description of the expected level of knowledge, skill, ability, or expectation relative to the standard.

Evidence: An item or artifact produced, developed, created, or presented to demonstrate that an indicator or standard has been met or implemented.

There are three parts to Section I NCSA Superintendent Standards:

Part 1 Standards View: This includes a listing of the nine superintendent standards.

Part 2 Standards and Indicators View: This includes the nine superintendent standards and the indicators that serve to define the standards.

Part 3 Standards, Indicators, and Evidence View: This includes the nine superintendent standards, the indicators, and examples of artifacts for each indicator. Many of the artifacts show evidence of multiple indicators or standards.

**Meets Expectations:** Once the input has been gathered and reviewed and the summary is completed, there is ample evidence the superintendent is meeting the standards and indicators of performance.

**Does Not Meet Expectations:** Once the input has been gathered and reviewed and the summary is completed, there is little or no evidence the superintendent is meeting the standards and indicators of performance.

**Improvement Plan:** If there are standards and indicators toward which the superintendent needs improvement or development, the board may require specific action for improvement on those standards and indicators. Criteria for an improvement plan can be found in Section III: Resources.

☐ Before the board approves a proposed contract or amendment for superintendent services, a copy of the contract or amendment shall be provided, along with a reasonable estimate and description of all current and future costs, to the district if the proposed contract or amendment were to be approved.

☐ The publication must occur at least three days before the meeting to consider the contract or amendment and shall also specify the date, time, and place of this public meeting.

☐ The board may satisfy this publication requirement through electronic publication on the district website, if it is prominently displayed and allows public access to the entire proposed contract or amendments.

☐ Within two days after the board approves the contract or amendment, the board shall publish a copy of the contract and a reasonable estimate and description of all current and future costs to the district that will be incurred as a result of the contract.

☐ Electronic publication shall satisfy this requirement if prominently displayed in full on the district website.

☐ The board shall also file a copy of the contract or amendments with the Nebraska Department of Education on or before August 1st.
**Improvement Plan**

If it is recommended to focus on areas needing improvement, the following elements should be included in an Improvement Plan:

- Clearly stated identification of the specific standards or indicators that need improvement.
- Measurable goal(s) for growth and improvement to a level that would be satisfactory.
- Clear and specific activities required to accomplish the goal(s).
- Evidence and artifacts that will be expected to determine if progress is being made or if the goal(s) are being accomplished.
- Clearly defined timelines, including benchmarks or progress checkpoints, and a final date for completion.
- Summary or record of progress and/or completion. Signed and dated by the Superintendent and Board President.

**Evidence and Artifacts**

*This section will be developed with input from superintendents across Nebraska. When completed, it will provide more detailed descriptions and examples of evidence and artifacts.*
